### **RECONFIGURATION OF CRAWFORD STREET INTERSECTION WITH HIGDON FERRY ROAD IN HOT SPRINGS REQUIRES LANE CLOSURES**

**LITTLE ROCK (9-8)** – Reconfiguration of Crawford Street in Hot Springs will require lane closures beginning this week, according to Arkansas State Highway and Transportation Department (AHTD) officials.

Weather permitting, crews will begin Wednesday, September 9 to realign the intersection of Crawford Street with State Highway 88 (Higdon Ferry Road) to match the signalized intersection with Emory Street approximately 300 feet to the south. The work will require a relocation of the west end of Crawford Street.

Motorists should expect lane closures on Crawford Street as work progresses. Once this work is completed, traffic will be switched to the new alignment and the traffic signals at the new intersection will be fully operational.

This work is part of a project to widen 0.192 mile of Higdon Ferry Road from three to five lanes with curb and gutter, sidewalks and bike lanes. Cranford Construction Company was the low bidder on this project at \$2,166,873.33. The project should be complete by the end of October 2015.

Drivers should exercise caution when approaching and traveling through all highway work zones.
